UNITED STATES DEPARTMENT OF AGRICULTURE  
FLOOD CONTROL COORDINATING COMMITTEE  
Washington

April 27, 1939

AGENDA FOR FLOOD CONTROL COMMITTEE MEETINGS AT WASHINGTON, ST. LOUIS,  
AND SALT LAKE CITY

PERIOD MAY 1 to 10, 1939

Mr. Arthur C. Ringland, General Chairman

First Day (of Each Meeting)

Morning sessions (9:00 to 12:30)

1. Background and Progress of Flood Control Survey Program

Discussion Leader

Mr. Ringland

(Relates to subject matter of Committee Memorandum No. 39 down to and including item 7(b) on page 2).

2. Time and Cost Restrictions on Current Surveys

Discussion Leader

Dr. A. L. Patrick

(Relates to subject matter of Committee Memorandum No. 38, also brief announcement of projected surveys including statement of time and cost restrictions, question of submitting unit reports, etc.)

Afternoon sessions (1:30 to 5:30)

3. Survey Objectives and Procedures

Discussion Leader

Mr. M. M. Kelso

(Need for early work outline preparation as means of clarifying survey objectives and as basis for orderly development of survey program and conduct of surveys).

4. Special Technical Studies in Survey Program

Discussion Leader

Mr. E. N. Munns

(Need for adequately evaluating watershed conditions and physical effects of proposed remedial measures through field studies of infiltration capacity, precipitation, sedimentation and streamflow; problems involved in making measurements, analyzing records and applying results; efforts to standardize procedures and equipment; cooperative relations with other agencies involved in setting up, operating and maintaining installations, and in collecting data).

5. Economic Aspects of Remedial Programs

Discussion Leader

Mr. M. M. Kolso

((a) Principles underlying economic justification procedure; type and extent of data needed, sources of data, collection and analysis procedures. (b) Policies underlying determination of cost distribution between flood control and related land programs).

Second Day (of Each Meeting)

Morning Sessions (9:00 to 12:30)

6. Cooperative Aspects of Flood Control Operations on Private Lands

Discussion Leader

Dr. A. L. Patrick

((1) Arrangements for work agreements with soil conservation districts; with conservancy districts; (2) arrangements for effecting cooperation with all other local interests involved; (3) measures to be financed out of flood control funds; (4) provisions for maintenance of flood control works).

7. Requirements for Flood Control Operations on Federal Lands

Discussion Leader

Mr. E. N. Munns

((1) Agreements in principle with administrative officials on types and scope of remedial measures; provisions in current surveys for checking with federal administrators on flood control problems and recommendations; (2) determination of measures to be financed from flood control funds; (3) arrangements for coordinating regular administrative programs with flood control program).

Afternoon Sessions: Informal Group Meetings.
